

Free Envelope Craft Tooth Fairy Mail

www.Quality-Kids-Crafts.com

Directions: Cut out envelope template on large dotted lines (or as close as possible to the solid outer line). Cut a slit along the solid line above "Official Fairy Mail." Fold along all four thinner dotted lines. Decorate with stickers, markers, crayons, and/or glitter! Tuck top flap into the slit for a fairy-friendly tooth envelope.
Tape along sides if desired.

Note: This arrow is pointing at the solid line where you will cut to make a slit to tuck the top flap into.

A good way to do this is to fold (but not crease) and cut on the line. *Always make sure you have permission to handle scissors.* Enjoy!
